

JOSEPH

School Feeding and School
Supplies, Nicaragua

Joseph attends Oasis de Esperanza, which is located in one of the roughest, most gang-infested parts of the capital city of Managua, Nicaragua. Over 400 students, from Preschool to 11th grade, attend the school. In partnership with Feed the Hungry, Inc., school children, like Joseph, receive hot, nutritious rice meals at lunch. Without a school feeding program, Joseph would end up on the street or working alongside his parents at the dump during the day, instead of finishing his education to gain a chance at a brighter future.
